

Public Consultation on the proposed new model for Children's Services
Annex D - Supplement - Children's Centres Casework

Case Work delivered by Children's Centres

Case work represents work carried out with a child or young person and their family who have been identified as needing targeted support as a result of an assessment.

The child or young person will always be the main focus of the work, but case work will also consider the needs of the family as a whole and in partnership with the family determine an action plan to secure positive outcomes.

Children's Centre (Some Children's Centres amalgamate their case work data, these Children's Centres are listed together)	Number of children under 5 in open cases as at 28-5-15	Number of Families open as cases as at 28-5-15
