

Draft Oxfordshire Joint Health and Wellbeing Strategy (2018 – 2023)

Questionnaire

The **Vision** for this draft strategy is:

Our Shared Vision is: “To work together in supporting and maintaining excellent health and well-being for all the residents of Oxfordshire”

Q1. To what extent do you agree with this vision? *(Tick one box only)*

Strongly Agree	<input type="checkbox"/>
Agree	<input type="checkbox"/>
Neither Agree or Disagree	<input type="checkbox"/>
Disagree	<input type="checkbox"/>
Strong Disagree	<input type="checkbox"/>
I don't know	<input type="checkbox"/>

Q2. We have reviewed the current issues and have picked out the most urgent priorities for our renewed focus on delivery through partnership. We aim to: prevent ill health before it starts; give people a high quality experience as they use our services; work with you on reshaping your local services and tackle our chronic workforce shortages.

The priorities can be summarised as:

- **Priority 1:** Agreeing a coordinated approach to prevention and healthy place-shaping, which means ensuring that physical environment, housing and social networks can nurture and encourage health and wellbeing.
- **Priority 2:** Improving the resident's journey through the health and social care system so that services are available when needed and are joined up.
- **Priority 3:** Agreeing an approach to working with the public to reshape and transform services locality by locality, which means a more local approach where we would look at what the local health needs are.
- **Priority 4:** Agreeing plans to tackle critical workforce shortages.

To what extent do you agree with these priorities?

(Select the most applicable option in each row.)

Priority 4	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- Q3.** In addition to these priorities we will be developing our work together on a wide range of issues that affect different groups in the population. These are set out in the strategy using an approach which covers all ages and stages of life: ensuring a Good Start in Life; enabling adults to continue Living Well; and paving the way for Ageing Well. Many factors underpin our good health and we will work together to address these too under the heading Tackling Wider Issues That Determine Health.

What will we do to improve matters for local people?

A good start in life: Aim: 'Oxfordshire – a great place to grow up and have the opportunity to become everything you want to be'

We have identified objectives that will demonstrate the success of this aim. To what extent do you agree with these objectives?

Be successful - This looks to ensure children have the best start in life, have access to high quality education, employment and motivational training; go to school feeling inspired to stay and learn; and have good self-esteem and faith in themselves.

Be happy and healthy - Children can be confident that services are available to promote good health; learn the importance of healthy, secure relationships and having a support network; have access to services to improve overall wellbeing, and easy ways to get active.

Be safe - This looks to ensure children are protected from all types of abuse and neglect; have a place to feel safe and a sense of belonging; access education and support about how to stay safe; and have access to appropriate housing.

Be supported - Children are empowered to know who to speak to when they need support, and know that they'll be listened to and believed; can access information in a way that suits them; have inspiring role models; and can talk to staff who are experienced and caring

Q4.

What will we do to improve matters for local people?

Living Well: Aim: Adults will have the support they need to live their lives as healthily, successfully, independently and safely as possible, with good timely access to health and social care services.

We have identified objectives that will demonstrate the success of this aim. To what extent do you agree with these objectives?

Prevent the development of long term conditions by helping people to live healthy lives, live in healthy places and avoid the need to go to hospital.

Identify ill health early, through comprehensive screening programmes, good access to services and targeting those least likely to attend.

Value mental health equally with physical health.

Deliver sustained and improved experience for people who access services, by working together to deliver effective services and using the expertise of our customers and other key stakeholders to design, procure and evaluate services.

Ensure services are effective, efficient and joined up, available when needed and that movement through the health and care system is seamless.

Nurture healthy communities that enable people to participate, be active, give and receive support.

Q5.

What will we do to improve matters for local people?

Ageing Well: Aim to ensure that Oxfordshire is a place where individuals, whatever their age, are valued and empowered to live healthy, active and socially fulfilling lives, connected to the communities they live in.

- Q7.** Sub groups of the Health and Wellbeing Board are responsible for developing a collection of strategies and action plans to deliver this overarching Joint Health and Wellbeing Strategy. They will report their progress at every meeting of the Health and Wellbeing Board and will keep up to date performance dashboards to enable the Health and Wellbeing Board to monitor progress and hold partners to account.

We would welcome your comments and ideas on arrangements for monitoring progress.

- Q8.** Do you have any further comments on the draft strategy?
